ACCELERATE YOUR SALESFORCE...

Now that you have purchased Salesforce, you want to ensure that you have a plan moving forward – nothing is more frustrating than implementing a solution, and needing months before you see a return on your investment! Let us help you accelerate your Salesforce, and ensure you're on track to success through the xLerate xPress service!

The xPress package will give you quick production access to your Salesforce, all configured around your key business requirements. The xPress package will ensure you have the solution and training you need to gain quick user adoption, and rapid return on investment.

Deliverables for the xLerate include a requirements building workshop, configuration and review, training and documentation on the technical implementation and best practices for Salesforce use. And dependant on your needs and budget, your project can be customized into a package built for you running in five days!

To find out more on how you can accelerate your Salesforce through the xPress service, contact us at info@xlerate.ca or at (613) 424-9235.

Note – the xPress packages is not intended for clients who require advanced functionality, such as customization forecasting, complex workflow, data migration or complex reports and dashboards.
